

Coded Sub-Arc Welder

Transvac are world leaders in custom designed Ejector systems for the process industries. Having supplied thousands of ejectors, Transvac have over 30 years experience, backed by a comprehensive list of world-wide references, in a wide range of process industries - including oil, gas, water, chemical and food manufacture.

As both a designer and a manufacturer, Transvac have full control over process and mechanical design, supply of raw materials, manufacturing, scheduling and testing. With all procedures certified to BS EN ISO 9001:2000, accreditation to Module H of the Pressure Equipment Directive (PED) and CE marking, where appropriate, the quality of the final product is assured. Transvac are also 1st Point Assessment and Achilles registered.

Our busy workshop needs an experienced welder to join its team. Experience of other welding methods i.e. TIG / MMA / FCAN would be an advantage.

The ideal candidate must be capable of fabricating and welding pipe-work and vessels for the process, petro-chemical and offshore industries in accordance with National and International Standards e.g. ASME BS EN.

He / She will be required to work to an extremely high standard and must be able to work to engineering drawings. Experience on various grades of materials i.e. Stainless Steel, Carbon Steel and Duplex is essential.

This full-time permanent position offers market salaries and benefits. Transvac are an equal opportunities employer.
